Thanks for the feedback, guys. First off, I just want y'all to know that I'm not a total pussy when it comes to the undead. Hey, I've gotten and beaten all the Resident Evil games. [The movies stunk out loud though.] And I was just trying to say that titles/series like this make me think comics have passed me by. I'm all for shaking things up a bit but turning my favorite superheroes into soulless flesh eating monsters that can't be killed goes too freaking far! I guess I just look at these characters as symbols of happiness from my less-than-ideal youth and turning them into zombies and having them eat their loved ones (Darumma, you're one sick monkey, man!) seems to bastardize my lost childhood. (There I go, being overly sentimental again. God, I'm such a girl sometimes!) Anyway, thanks, for giving me a forum in which to express my opinions at. Finally, I'm not saying such horror comics shouldn't be published since there is obviously a market for them. Just put them in the back room and up on the top shelves with the rest of the (not as nauseating) pornography! That's what I'd do at my comic book shop... if I had one.
