From my local paper yesterday: "Jude Law may star in the *Superman Returns* sequel as the superhero's enemy General Zod, who was played with mischievous abandon by Terrence Stamp in *Superman II* (1980)." Sayyy whaaaaat? First Heath Ledger as the Joker, now another Hollywood Nancy boy playing a DC comic book super villian? When did I end up on Bizzaro World? Speaking of Bizzaro, how about letting some other Super villians have the spotlight? Metallo, Brainiac, Parasite, or even Mr Myxztplk would make an interesting challenge to the Man of Steel. Your thoughts?
