I haven't responded for a couple of reasons. One, I have yet to find the comic that grabs me and makes me want to collect again. Two, I have a friend at work who is severely into this whole story line and tells me about it almost every day.

Some highlights that I found interesting tho.....

Wolverine gets burnt down to straight metal, and a few seconds later shanks some dood after being fully healed.

Wolverine compares Sentinels guarding the 198 mutants (damn that Scarlet Bltch!) to burning crosses down south. And Luke Cage needs a beer after hearing the comparison.

Bishop can't hang after absorbing Cyclops' power. And yeah I heard Cyclops never has used his full power until that jack knob took control of him voodoo doll styley.

Domino and Shatterstar escape a sealed complex filled with weapons of mass destruction and half the 198. Place goes boom, half those mutant bastiches might be goin bye bye! (seriously, somebody slap that Scarlet Bltch for the wish she made in House of M)
