Re: Vern as Batmite - It's my Birthday. Got my car fixed. New tail lights. Its my birthday.

Re: Batwoman - After reading the Cassandra Cain version of Batgirl and then reading Dan Didio's new rule of "No redundant characters in the DCU." I have reached the conclusion that this Batwoman needs to die like her silver age counterpart. Ruthlessly, painfully and without remorse. The new BoP Batgirl needs to be removed as well.
