Ladies and gentlemen!

This is not related to any comic book I know but what I intend to do could be understood as a "hero" photomanip.

I want to build a huge pic with Asimov's "heroes". If you are interested, please, post here your ideas. Each heromorpher could be transformed into one of his characters.

Let me point some of them to your appreciation:

Andrew Martin (that option has a candidate already! Heh!)

Ligi Balley

Daneel Olivaw (that option too, I think!)

The "Mule"

Bayta Darrel

Hari Seldon

Dors Venabili

Golan Trevize

Janov Pelorat

Bliss

...

You, of course, realize that I need some photos from each candidate! Let's see what happens!

Update: my e-mail can be found in my profile. Before you send me your photos, please, post here the character of your choice. Thank you.
