My Super Hero Lover is
photobucket
X-23

Protect more **67.6% Match** or less!
You are in for a wild time. X-23 has the stamina to keep going and going. Rough and wild, don't get on her bad side or she might pop a couple claws into ya.

Other Close Matches:

-  **Aurora (67%)**
-  **Lyja (64%)**

Who is your super hero lover?

I got #1 X-23 (67.6%)

#2 Aurora (67%)

#3 Lyja (64%)

Seeing as they are so close matches, I guess dating all three would be the right thing to do? (and

pray that they didn't find out about eachother)

I guess it worked out pretty well, I do like brunettes. And I have a thing for slightly loopy bad girls. Even though they are bad for me. As the stiletto footprints on my back can testify.

One thing though... why does everyone get Aurora? Is it her multiple personalities that make her a perfect match for everyone? Or is she just that much of a slut?
