George Miller is the Director.

About the villain, at IMDB they say it will be Doomsday. But hey, they also say this movie is due in 2010, so I hope things change until then, maybe even shut the all project down, because from what I read increase my certain that it will suck. Of course, we never can tell...

btw: Agree with you on the AVP movie, chilly. I read somewhere they gonna try a second, is that true?
