I ain't gonna be able to finish my prequel, been too damn busy, my computer is on it's last leg I hear the fat lady warming up, (YOU CAN'T HAVE MY IBOOK YET BITCH!). Good news, I should be able to get the round one done as my new computer will arrive hopefully by the end of next week (damn Dell is being slow about it) and I'm hoping I can just hook the my mac and my new dell together through a shared folder or something and drag my poser runtime over, (ugh 20 gigs) otherwise, it's gonna be a pain in the ass re-downloading EVERYTHING in pc format and then reinstalling everything and If thats the case, Spiderman may be dead by round 2. Then I actually have to learn to install poser content on the pc.

On the plus I found Poser Pro for \$99 bucks. I may end up getting it soon, unless I can find a better deal.

Welcome aboard with Vampirella, I hear Venom' s lonely and looking for lovin', and he's a biter.
