The Real Reason The Empire Lost
(including footage cut from Return of the Jedi)

Officer: We just lost our bridge deflectors!

Captain: Intensify forward firepower I don't want anything to get through.

Private Douchebag: Um, if I was going to bother pushing the Intensify Firepower button don't you think I would have done it when the battle started?.

(burning ship heads towards bridge)

Captain: Intensify forward firepower!

Private Douchebag: Why? That guy's already on fire, he'll explode in a minute anyway.

Officer: Too late!

Private Douchebag: See, told you... ahhhh! I'm burning! I'm going to mess up the navigation controls!

(meanwhile in the engine room)

Engineer 1: Hey the bridge is telling us to change course to collide with the Death Star.

Engineer 2: Sure, whatever.
