I am looking forward to Watchmen... but I am sick of everyone I know wanting to borrow my copy! Wolverine doesn't excite me... I always thought they had the character wrong for the big screen and are just pandering to the masses, more so here.

(Push and T28 both look cliched... where is the originality?!)

I am looking forward to Star Trek, I think the marketing has been great ever since the first trailer of building Enterprise.

Here's so me more due this year;

Planet 51

Another Underworld sequel

Creature From The Black Lagoon (and apparently Breck Eisner will remake Flash Gordon after this)

Fanboys

The Surrogates

The Wolf Man

The Birds

S. Darko (sequel to Donnie)

Dorian Gray

Sherlock Holmes (Robert Downey Jr)

The Imaginarium of Doctor Parnassus (Terry Gilliam... featuring the final performance of Heath Ledger)

Coraline (Neil Gaiman)

They Came From Upstairs

Terminator Salvation - the start of a storyline spanning 3 movies

Monsters vs Aliens

Avatar (James Cameron)

Inglourious Basterds (Tarantino)

Red Sonja (Riodriguez)

When's Sin City 2 due?
