Bad News:

My harddrive died after the storms we had recently, yes I had a surge protector...and it was old. Anyway, I will not be able to answer you until I can buy a new one. Do not worry, I just backed everything up so at least I didn't loose anything.

I do not know when I will be back hopefully within this next week.

I am responding from another computer.

Good News:

When I get back I will be doing commissions with PayPal because I now have an account. YAY! and with new lower prices. I have reconsidered my priceing and will be lowering my rates.

See you all when I get back.

Kisses
