I have a wide screen monitor and the full screen option just shows the lower half of the page without any ability to scroll... could be my browser, but I prefer the other option in light of this.

Bio, If I remember corretly from a past test I did, You belong to that 0.00001% of the population that has javascript disabled on their browsers.

And all options I put to test so far need javascript enabled to be fully funtional.

But... thinking about you (and the reat of those who don't have javascript enabled), I tried to find a way to show the comics without javascript (although an updated browser is a must) and here it is:

[Option 4](#)

The voting continues...

OH and btw, on option 3. although the scrolling ability, the idea is to use the keyboard arrows up&down to read the page.
