Don't know if this is a singular issue or if its happened to others but i came across an issue with the random images when i clicked on a thumbnail of a image of Captain Marvel done by QuantumFX titled 'Earth Sentry' but when i clicked on the image this is where it sent me.

that's a weird one. earth sentry isn't listed in his gallery but the picture clearly titles it that with him as the artist. and the pic doesn't match. I wonder if it was like that at the old site.
