Well, Ok. I guess you shrugged off my "NachtWaltz"...and a few others back on my site. Don't blame ya. My sketchings...well...um..."sketchy".

Ok, I'll do another, heavy artillery full-on photohack this time.

But I ain't puttin a barcode on it. I work for free.
Long live the Open Source Revolution!

What? Well that's just mean. You mean I gotta go beat up folks for a "bully" avatar? A year ago, I'd be at yer throat in a sec, but I'm reformed now. I may even throw a few deuls to help out a friend who deserves one. It just ain't fair. Sigh. Nice guys get the crappy avatars.

And how do I keep the "vigalante" title around here? It just fits me best.

BTW...was lookin for your art and came up short. Care to hint me with where to look? Comawn, I show'd ya mine!
