Ah, there you are. Sorry, still getting used to the nav around here. Some good stuff in there. Say 5 or so of the bunch. About the same ratio of gold to ore I get in my stuff, so pretty good. I tagged the ones I liked. Some good creativity there.

Ok, so you've seen my "Psylocke: Sanitarium" by now. Who sez portraits don't make good covers? I guess I'm just the artzy-graphic-novel type, that's all.

Glad you liked. I meant it for some serious assets mule kicking, "blow people's minds with our high voltage rock" kinda thing.

Next assignment? (BTW: you'd be payin \$300 per shot (and up) to boss a pro artist around like this)

Kinder, friendlier competition? That's refreshing. My appologies. This new attitude'll take me a minute to settle into. I was quite the warlord at my last gig, old habits die hard, but I'm trying to reform. 'preciate your patience w/ me.

(I figure I can use my title openly now after "Sanitarium")
