Like DW, I'll give it a go..but I'm not too thrilled about it. First off, there's the origins. That's all been changed. Sure they aren't alien like the first draft of the script (much to many a fan's relief) but they changed everything. Seriously... Shredder... white??? And the turtles are created by April's dad and The Shredder before he becomes the villain... wait, what?

Secondly, I'm not overly thrilled with the look either. Particularly in the face. In the trailer where Mikey takes off the mask I was instantly remind of a Goomba from the ill-fated "Super Mario" movie in the early 90s. Could be coincidence, could be an omen, whose to say?

I am relieved however, to see that Bay is producing this one and not directing it. Even still, judging by the trailer, Bay had his influences.

Meh, I'm still going to give it a go though, only not bothering with the theater. I'll wait until some swashbuckler uploads it.
