My question is this. Will DC allow such crossovers bleed into or work together with the DC Cinimatic verse like marvel did wirh shield or not

Marvel's blazing the trail there and I think it's not so much if DC will follow Marvel's lead so much as when. I think DC will figure it out eventually but I don't think it'll happen this season.

Of course, licensing is always a tricky legal issue and what characters go where will probably depend on which network they go to: Fox with Batman characters(Gotham), NBC getting all the DC owned mystics (Constantine) and CW getting an increasingly impressive list thanks to Arrow and Flash. I'm sure there's some characters whose on screen futures and where they'll end up are still being debated.
