Yikes. **Parker Posey**? I guess Hollywood didn't care how hard Blade III sucked. **La Femme Nikita** -- as a nameless flight attendant? Poor, poor Peta, I guess the Extraordinary Gentlemen hurt her career worse than I thought. And if they were going to include **Frank Langella**, why not cast *him* as Lex Luthor?

And, badly as the suit sucks (and it really does suck), it's not nearly as wrong as the guy wearing it. Christopher Reeve looked like Superman the first time I saw him in the tights; Dean Cain was too pretty as Clark Kent, but looked just fine as Supes. Brandon Routh looks like a dork, and I don't think the suit is entirely to blame.
