that he doesn't care at all for the new Superman costume. The S is too small and the neckline is too tight. Which is pretty much the opinion held by most here. I don't care for that neck line being so tight, why not wear a dickey with it then. The S should be bigger, this is SUPER man not So-So Man. I have read no reviews of this movie so I don't have any preconceived opinions of this movie. Aside from the costume and Kevin Spacey cast as Luthor, I can't say it will be bad or good. But WTF do I know?
