As much as I'm looking forward to the new season I think it's going to be hard to top the Cadmus storyline. They really made the Question shine! All of his quotes are priceless!

"It bites having someone in your head, doesn't it?"

Green Arrow: "Does everything have a sinister motive in your world?"

The Question: "Your's too. You just don't know it."

Supergirl: "What - do you go through my trash?"

The Question: "Please. I go through everyone's trash."

The Question: "Reaching back to Ancient Egypt, there's been a single cabal of powerful individuals directing the course of human history. But the common man prefers to believe they don't exist, which aids their success."

Supergirl: "Global warming? Military upheavals in the third world? Actors elected to public office?"

Green Arrow: "The spread of coffee bars? Germs outpacing antibiotics? And boy bands? Come on! Who would gain from all this?"

The Question: "Who indeed?"

"I want you to understand something, Luthor. Although my distaste for you as a human being is brobdingnagian, what I'm about to do isn't personal."

And in response to "Tell me what you know!"

"The tips at the end of shoelaces are called 'aglets'. Their true purpose is sinister."

"Topically applied fluoride doesn't prevent tooth decay. It does render teeth detectable by spy satellite."
