Every actress to play or give voice to Lois Lane from the 70s on has had a nude scene or pictorial somewhere.

Margot Kidder was nude in a few films and a Playboy layout.

Terri Hatcher, already cited.

Dana Delany (Superman the Animated Series) was completely starkers in an Anne Rice B&D adaptation I'm blanking on right now....

As for Lana Langs, Annette O'Toole was topless in CAT PEOPLE and nude in CROSS MY HEART and 48 HOURS.

Kristen Kreuk hasn't shown a lot of skin yet but an FHM shot of her in a top with huge side openings gave a pleasant glimpse of her chest.

DC only requests that the actor playing Superman not have nude scenes in his resume. But given Tom Welling's dorsal displays on SMALLVILLE, apparently that requirement has lapsed.
