Don't get me wrong... they all suck until I see them... then I normally enjoy them... I mean, they are total comic books... I had a guy sitting next to me in XMEN... and he said something to the effect that Wolverine's claws would go in and out... I looked at him and said "but you are ok with a woman that controls the weather?" Too funny. You just have to realize that you are watching a Comic book.

But to stick to my guns... all the movies that haven't come out yet or that I haven't seen SUCK!
