Woo, super heroes dying..... woo(burp)

From what I remember, WW died once already.

Superman apparently has died more times than Jean Grey can count. At least that's what the old folks keep telling me when I start talking about Doomsday kicking booty.

I was never into DC that much. It was rare that I found a story that would interest me from them. What I CAN give them credit for is that every time they brought up a new character, they always seemed fresh and new.

Marvel's characters didn't seem fresh and new, but the stories locked me down for hours of reading.

Image, everything was new about them when I read them.
