Well Dragondack... first off I have to say... I'd rather listen to Elvis Costello than David Lee Roth any day. At least he has some talent. DLR is like that obnoxious, overly drunk guy that nobody remembers inviting to the party and that you just can't get rid of.

As for the movie: I couldn't agree more on the costume-thing. This is Aeon Flux for christ sake! She's supposed to be half-nekkid... that's the whole point of it.

What's wrong with these movie makers? First they remove the sexy full body-suit from Catwoman and replace it with... heck, I don't know what to call it... and then they ADD a ugly body suit to Aeon Flux?

Here's a crazy idea: Maybe they should try do some research before doing the movies?
