I read a movie critic's review of the Star Wars Redo's when I lived in VA. She gave it 5 out of 5 stars and then proceeded to call it the worst piece of crap ever committed to film. Mainly because someone who'd never seen the first one wouldn't know what the hell was going on in the 2nd. According to her EVERY movie should have a beginning, a middle, and an end. And it seriously offended her that he split each of those between his movies.

I mean c'mon people! Critics are the kind of vermin that will give Terms of Endearment 6 out of 5 stars and tell you it's better than sex. They will also trash a great movie and then when it gets amazing sales..... 2 days later they claim they were the first to tell everyone how wonderful it was.

Why not go see it and decide for yourself?
