Thanks for comment of 'speed it up' However i was mostly looking for ideas of what people would like added to it before I finish and do it. Spiral can often be found having th following - Shields (rarely) Swords, crossbows, Daggers, sais, bare handed etc.

The images themselves do not take long i'm more looking for suggestion on what you might like to see on it before i do that Im also intending to scout through some of my old x-men comics to get a better detail of the costume based on that including adding more regular looking pants
