Who would you like to see more of in comics? What changes would you like to see in a character, team, production staff or other? I for one would like to see more of the following in comics.

1. Waterwitch [a female version of the Water wizard Character seen in Ghost Rider and other titles, an afro of red hair, and a similar or more aggressive personality. A similar history albeit an older teenager or young woman]
2. Green Lantern Katma Tui [revived, possibly the same way Warner Brothers did so]
3. Tilda "the Deadly Nightshade" Johnson [continuing the character development seen in Black Panther #48]
4. The Royal Flush Gang [third incarnation, the "whole deck" only with costumes that look like playing cards, not like common street thugs, who by pure coincidence have playing card decorations on their clothes]
5. Tarantula [based on the original Spiderman foe, only an Afro-Delvadian, with an afro, domino mask, and MsMarvel like scarf instead of a full head mask. This would be an excellent 'femme fatale' for Spiderman, possibly with a Black Cat/Spiderman or Catwoman/Batman like evolving relationship]
6. Shi'ar Imperial Guard [a series of their own, including all members, and a 'rogues 's gallery' of their own]
7. BADgirls, inc [same as with Imperial Guard, including Impala. This would be a useful Birds of Prey {or similar comic} competitor]
8. Honor Harrington [a graphic novel series based on all 17 Honorverse books or simply novels #10&11 and beyond]
