Oh, you must be usin' one of them left-handed zip drives. Or maybe your caps lock is on(that's my answer for everything). Or it could be that you need to clean up your start bar(inside joke). Seriously, though, I had a similar problem on an ex-girlfriends computer, and I had to disable her anti-virus to get the site to load. Just remember to turn it back on before you go searching for base models.
