Arisia ,to name the character you describe,would indeed be a an ideal robin-like apprentice .Together the Kat-woman of Korugar and her "sidekick"could be Korugar's Dynamic Duo.DC could call them the GLD(Green Lantern Duo),as well the Emerald Duo.Jade Duo is also ideal except it would be more ideal for a team consisting of Jade and Liara Omoto of Jayd.

As I believe Korugar"s Finest deserves her own comic[Soranik Natu should occupy a Nightwing- or Batgirl-like role to the GL Duo],A Laira Omoto comic or permanent membership in an established DC Comics team also seems interesting.She could provide an Azreal/Shiva/Black Canary like role in Kat's comic;Green Lantern:[Chronicles of]Sector 1417.
