The character Laira Omoto has been called the Psylocke of Green Lanterns. A comic featuring this Jayd Crusader, perhaps as the star, would also be A Lantern Comic Like No Other. They should perhaps, revive this Jade Crusader as well as Korugar's Finest. The revived Katma Tui and Laira Omoto need not necessarily be GREEN lanterns, they could be something other than lanterns entirely.

As for villains for these heroes to fight, in the past we have seen many outlandish and absurd costume ideas for villains. Royal Flush Gang, Joker, Captain Cold, and Penguin are some examples. Suppose you were to buy a lantern comic like no other you've read, and found the villains' costume motif were based on such games as Dice, Dominoes, Rook, Chess, Pool, novelty card games, othello or something similar?
