"Afro-American" is shorthand for "African-American", is not describing or named after a hair style. Quote:

And I think the correct term is ?African-American?. I've never seen Halle Berry with an afro.

As for this, I say place her in a leading action role.

Tomb Raider is now a successful comic in its own right ? regardless of its origins.

As for this, I stand by my earlier statements. It may be one, but it originated as a video game. The concept of a comic was apparently inspired by the game years later and thus not in existence when the game first appeared.
