Well those are the nominations.

The final nomination list is composed of both artist nominations and judges nominations. The judges split the categories up and added nominations of our own for pictures that we felt needed to be recognized. Also some nominations that were sent to us were removed because they did not meet the posted before January 1/04 deadline. Some of the categories have been removed because there was no artist nominations to them. All the above nominations were listed in alphabetical order based on picture title.

Congrats to every one.
