OMFG>>>>PLEASE ,PLEASE, PLEASE

someone with a little power make it stop!!!

Yes We need a real Hero here to step up to the plate and crush this evil plan to infect our ears and mind!

It started out as fun and funny but then get progressively worst as you find out that you can shut it off at the machine button but as soon as you open up a new window it starts all over again and again and again and it just keeps following you around the members section and the only way to make it stop is to turn off your speaker or leave!

So If there's someone of Power out there PLEASE MAKE IT STOP before are brains are mush?!?
