I am getting this message everytime I post a comment now. Before it seemed to be random, now I can't post at all. I keep getting the "taking you back" message. Could someone assist me please? I would appreciate it.

And before you smart alecs say "then how can you post here?" lol, I'm referring to the galleries. It seems to be a random effect. Got me.

Ok, whose been messing around with the ranks? Lord of the Romangrecopalooza? lol. I like the others though, they can stay. lol
Daruma, just goes down, snicker.
