This goes back a while and is not zombie related;

I stopped reading Marvel comics in the "Jim Shooter" era, DC comics in the "Death of Superman" era, and Vertigo in the "Oh my god I got two kids to pay for" era.

Friends still direct me to exceptional work when it arises, and I'll read darn near anything by Frank Miller; but for the most part, I agree with Biohaz_Daddy when he stated "I look to alternative publishers, and TPBs. I find more satisfying reads that way". Even though the anticipation of the next issue is missing.
