With the use of new tools in the coloring can it be done digitaly or is digital everything still off limits?

Quoting myself:

You will no longer be limited to pencils as the media you have to use. You can use any **drawing impliment** you are comfortable with as long as it's: "**monochromatic**" (from Merriam-Webster-**having or consisting of one color or hue.**), and the raw (**non-computer retouched**) drawing.

Unless otherwise specified coloring is not part of the Draw Off.
