Later, when Eddie Brock and Venom were seperated and Eddie was in prison, the symbiote attempted to rescue Brock. While escaping, a "seed" broke off and bonded to Brock's cellmate Kletus Cassidy (think Ted Bundy and Hannibal Lecter). This symbiote became Carnage, and has all the abilities (and weaknesses) of Venom. Later, the govt. tried to create it's own team of symbiote agents. Of course, this did not go well, and all the symbiotes were absorbed into Hybrid, then later killed. Years later, Carnage decided to "spawn". Venom know that this symbiote could be a threat, and tried to kill it's "grandchild" before it could bond with a human. Venom and Carnage fought, and the seed bonded with a cop. This good man has tried to break the cycle of violence, by becoming the vigilante Toxin, although his "other" sometimes crosses the line, as it is still learning...the end *phew*
