Who was the chick with the purple hair with Callisto near the end? The one who went through the wall?

It was Psylocke. I was confused about that scene as well, as that's the only time you see her using any powers. I looked it up, and apparently she can teleport using shadows  
. I would've much rather seen the dagger...

Did anyone else think it was weird that the Prof didn't even give Cain a glance?

They must've decided that making Juggy the Professor's half-brother would've taken too much explaining.

Where was Jubilee? She was credited but I guess i missed her.

She was in one of the classroom scenes for about a second.

Other thoughts:

-I thought the Omega Red cameo was kinda cool.

-There definitely should've been a Colossus/Juggernaut fight scene.

-You think Mystique...sorry...*Raven* was actually trying to help the feds, or just setting them up for Madrox's "decoy"?

-"I'm the Juggernaut, bitch!!"

I really need to see it again. The more I think about it, the more I'm disappointed, but when I first came out of the theater I thought it was the best movie ever.

Also, should we add a \*spoilers\* to the title of this thread?
