You mean like the time I took this hot girl on a date to the movies, and we saw Star Trek. I ducked out to get a drink and when I came back she said ?You missed the bit where they fired the proton torpedoes.?

I looked at her and said ?They?re called PHOTON torpedoes, you STUPID bitch! PROTON torpedoes are in Star Wars!!! aHAHAHAHAHAHAHAHAAAAAAAAA?

Then I just stood and pointed and laughed at her until she left.

(that never happened, I often pretend to be a normie? or as I call it?normal?)
