Blek, spit, scrape tongue, etc.... I can't get the bad taste out of my mouth. What a load of sh!t. Hmmmmm... can you say "completely predictable?" Angel flies off... Dad gets chunked... Hmmm what will Happen, I wonder.... Phoenix comes back... my buddy (Not a big comic fan) asks "What the hell" I said don't worry... she'll be dead before the end of the movie...again. I do not recall the other 2 movies being so predictable. The only part of that movie that I liked was when Wolverine kept cutting that dudes arms off and they kept regenerating... and then I immediately thought of VL and her comment about Growing. I laughed real hard. OH, and I liked Phoenix's last stand... that was pretty cool too. As long as they are killing everyone off... I would have really liked to have seen Wolverine get all his adama... ademat... ah screw it... all his metal sucked out of his body by Magneto.... Now that would have been exciting. And did anyone else find Dark Phoenix hotter than Jean? Something about those blacked out eyes that was just... mmmm.mmmm. good. Oh, and Psylocke... if that was truly her, didn't have a mark on her face originally... so, did they have to put a mark on her face because of how crap-ily she was cast? That way people might recognize her?

Yeah, the fight scenes were top notch... but the movie as a whole... I want my \$8.00 back.
