I love Lawless' look, especially in that picture. BUT...

1. Xena ended a while ago and she might be a bit older than what they're looking for. After all, she's supposed to be ageless, so you'd need to pick a young actress.

2. After being compared to WW throughout the series, (you gotta admit the costumes bear some similarities) and after taking on other roles to seperate her from Xena, would she go back to being the scantily-clad fanboy dreamgirl and risk getting SERIOUSLY typecast?
