To Current and Future Bung-Holers:

This is a good site but not (thank goodness) a democracy. I have been able to survive here by insulting no more than 2 (two) Moderators (MODs) a month - so I spread it around. I pick fights with people I like and like to fight back (like Wasmith). It's not hard.

My pet peeves are: flooding the Gallery {regardless of the posting limit - be respectful of your 60+ fellow artists}; and stalker/snipers who ruined the ratings system (if you have the "courage" to rate a pic as a 1.0, say why).

And by the way WH, since I haven't picked a fight - your early maya (oops! I mean poser) sucks (but I think you're now one of the best!)
