There is some remote possibility that some at this site could construe this thread as including me/myself/I/and others residing in the brain known as MsVee. Those who might believe that I/we/us are included in this sad category are sadly mistaken, and I'm sure Bio & the Mods would agree with our Shrink who says we'll be out by the turn of the Century.

However, I/we are actually writing to clear up the cat controversy. It is true that curiosity killed the cat, BUT that was only the first of nine (9) lives. I hope that clears that up for everyone.
sincerely, Ms/Mrs/Mss Vees's
