you guys....

Wasmiths questions are good (a couple I dont know).  
Since this is the general public, here are a few that are a bit simpler.

What is the name of Superman's secret lair?

Other than Green Kryponite, name 3 other types.

True or False, was there ever a Super-monkey?

What is the name of the miniturized city that Superman protects?

How many times has Superman actually died?

What "strange" villian wears Superman's uniform, but with the "S-emblem" backward?

What long-time love did Superman finally marry?

What is the name of Superman's dog?

Who is Clark Kent's boss at the Daily Planet?

Where does Superman get his super-strength from?
