did you ever get a great idea for a pic....you get on the net and search hours,days,months to find just the right pose and model but you can't so you either give up or do it a different way and it sucks...with poser all you do is load up a model and pose it the way you want...poser is a creation program but theres very little creation involved you can make hair and clothing but for most....including me find it to hard to do yes it sucks that you have to pay anywhere from \$2.00 to \$200.00 for stuff but there are great freebies out there...if you don't think its art your wrong it take just as long to make a great poser pic as it does to mannip and in manniping your doing the same thing taking a exsisting model and adding to it some artist will tell you that manning is'nt art either ...but opinions are like assholes everyone has one
