can someone explain something for me...

When you buy Poser is it not possible to create your own bodies, clothes or whatever?

Far as I know, and I could be wrong, but creating bodies, clothes and other props are MOSTLY done in other programs. Think of Poser as playing with Barbies
you can play with her and pose her in different postions, but if you want to dress her up, you have to get the Barbie figure skater or Barbie S&M fun pak. The more money you have, the better artist you are
