Since the Amazing Amazon IS Mediterranean originally, someone playing devil's advocate could point out that Lynda Carter was too "white bread" to really look the part.

I loved Lynda Carter, but I think this rumour could very well be true. Joss Whedon is set on picking a relatively unknown actress for the part, which is a strategy that's worked for several other heroes we all know.

And while Ms. Chopra has a lot of Bollywood credits to her name, she's not got a lot of name recognition in the North American side of the pond, which essentially makes her an unknown. Plus her ethnicity would probably boost foreign ticket sales.

No to mention she's the right age bracket, she's got a nice enough rack, and she's hot.

Works for me.
