I'm way more of a Marvel Fanboy than DC. Infinte 'whatever' completely lost me. I have been reading Civil War, and so far it's been ok. I have to admit, I'm never a fan of the "Event" comics... they never end well. However, Ultimates 2 Is absolultely great right now! 2 more issues to go. Just a shame that Millar & Hitch are leaving the book, I'm not really a Jeff Loeb fan.
