alright, as all of you who've seen my photomanipers know, i'm horrible at it. no, no... it's the truth. it's bad. so... i'm looking for someone's who's friggin' awesome in photomanipers who lives in the Chicago / Chicagoland area to help me out. i tried websites... and well... they just don't work. i'm one of those learners who needs to be sitting next to someone to catch on [sorry, i'm not as bright as i'd like people to believe]. any takers? i have no problem paying for food & drinks [no alcohol, though, because i don't believe in it]. or, if you're looking for payment, i'm sure i can scrounge up \$20. but i really need the help. thanks, guys [and gals].
