I thought the movie kicked a\$\$!

It was pretty true to the original films (1 & 2). The wry smile that Routh give is just like Reeves.

SPOILER

I think that being a parent will give you a different perspective to the film. Although, taking the kid on the yacht was stupid and no parent could be that dumb.

(I say that because they established that she was mindful of what he ate and if he took his meds. The fact that she'd take her boy to a place where a major EMP crippled part of the US is very hard to believe.)
